

Canadian
Cardiovascular
Congress

FREE MEDIA REGISTRATION OPEN

- 3000+ delegates
- The latest in cardiovascular science and practice

Attention: MEDICAL / SCIENCE / HEALTH/LIFESTYLE WRITERS / EDITORS

Who: *The Heart and Stroke Foundation of Canada* and the
Canadian Cardiovascular Society present the

What: **CANADIAN CARDIOVASCULAR CONGRESS 2006**

Where: **Vancouver Convention and Exhibition Centre**

When: Sunday October 22 to Wednesday October 25, 2006

- **Are cell phones dangerous to critical hospital equipment?**
- **What diet offers the best protection from heart attack?**

PLUS:

SUNDAY

Congress opens with special addresses by the **Honourable Gordon Campbell, Premier of British Columbia** and the **Honourable Tony Clement, federal Minister of Health**.

Also: From TV to real life – a special autopsy helps determine the cause of a young woman's death, and helps her family avoid the same fate.

MONDAY

Did dinosaurs have high cholesterol? How has evolution left us unequipped to cope with our modern diet? The **State of the Art Lecture** is an expert session on this important risk factor for heart disease and stroke, and how we might treat it in the future.

Also: a special session on cardiac wait times – are lives at risk?

TUESDAY

Is failing health care failing our hearts? The **Canadian Cardiovascular Society Consensus Conference** focuses on congestive heart failure, which affects 400,000 Canadians and will continue to grow as our population ages – are we up to the challenge?

Also: why aren't Canadians, especially women, getting a lifesaving device that they need?

-30-
